| I think it would be beneficial for some of the paraprofessional staff to be trained in appropriate behavior within the classroom. Some paraprofessional are disruptive in the classroom or hallways or are not helpful to the students they are working with. I have watched some paraprofessionals give answers to test questions when they are "helping" students. |

| We are understaffed when it comes to the behavioral needs of our students. We don't have enough time to adequately plan for students with major needs.                                                                                                         |

| I would love to have more training on how to better meet the needs of the life skills students in my classroom. I would benefit from a training pertaining to ideas on how frequently to give them breaks, how to better help them to follow our routine, etc. |

| Maybe more RBT support, but I know that costs money. Maybe a training for the paras for some kind of support like that would be helpful.                                                |
